Section 9E will permit the creation of public infrastructure districts to provide support, organization, operation, and maintenance of services. To create such a district, proponents for creating the district must file a petition with the municipality. The petition must include the signatures of one hundred percent of all surface property owners falling within the district's proposed boundaries. The municipality possesses the right to impose limitations on the district's powers prior to approving the district. Once approved, the district will be governed by a board of trustees.</div> <div>Through the board, the district may issue bonds to pay for all or part of all public improvements implemented by and for the public infrastructure district. The district will be limited to issuing bonds issued for such improvements not exceeding ten (10) mills. For repayment of the bonds, the district, acting through its board of trustees, will levy and assess a special assessment on all property benefiting from the improvements in the district. Section 9E also authorizes the Legislature to enact laws necessary for the implementation of public infrastructure districts.</div> <div>SHALL THE PROPOSAL BE APPROVED?</div> <div><input type="checkbox"/> FOR THE PROPOSAL - YES</div> <div><input type="checkbox"/> AGAINST THE PROPOSAL - NO</div> |
